

CommonTime has proudly launched a new brand. Alertive is dedicated to supporting the digital revolution in healthcare.

Saving clinical time

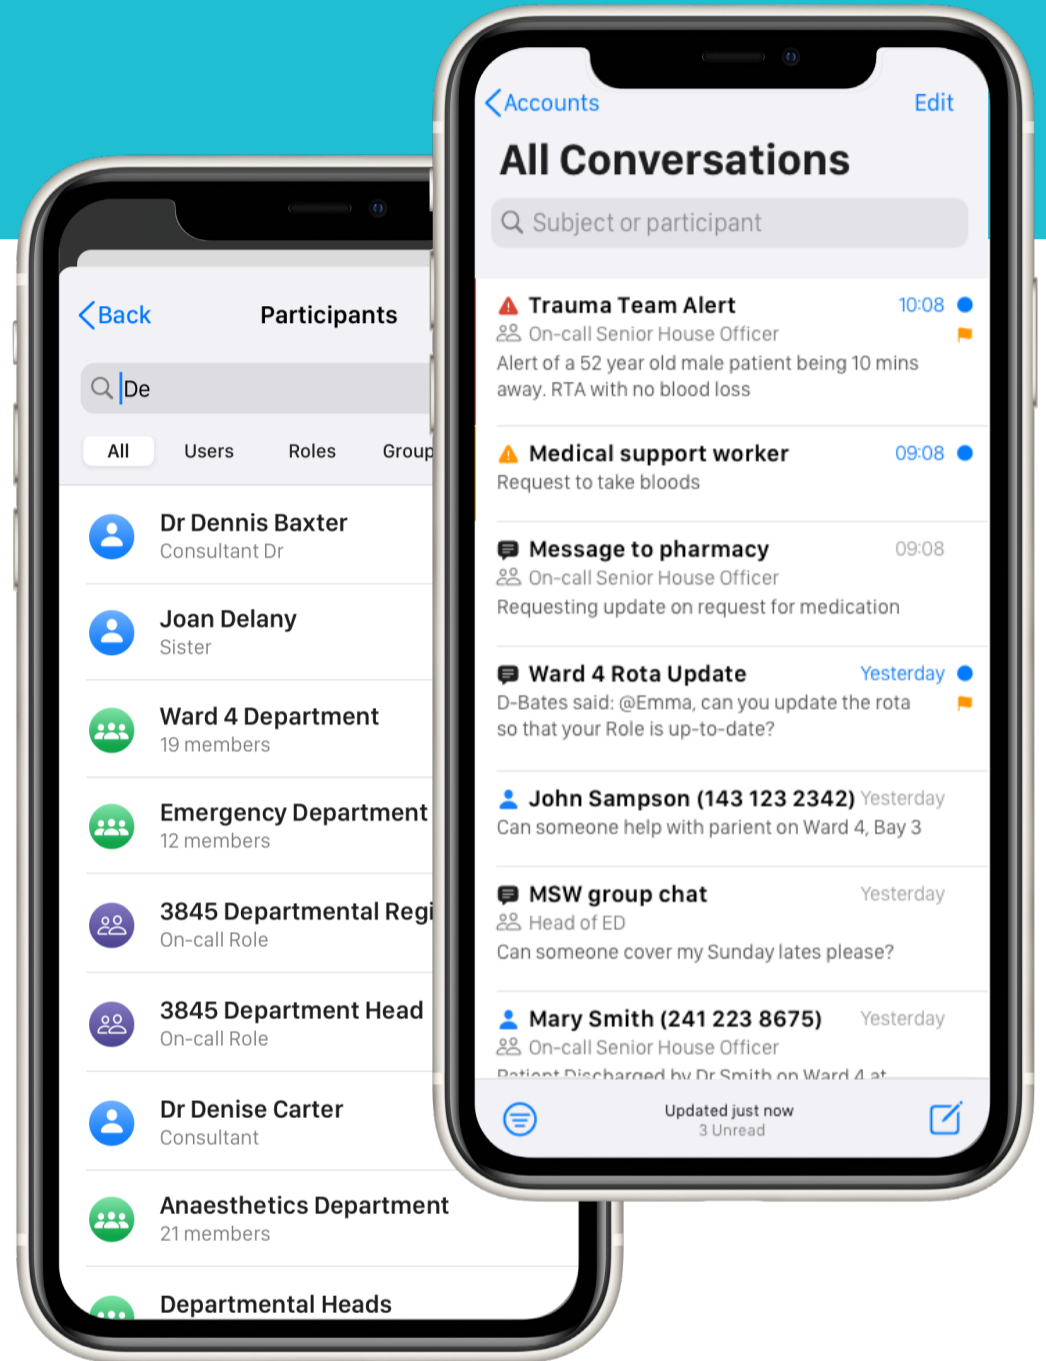

Supporting clinicians in their role

Better and faster patient outcomes

CommonTime is proudly introducing Alertive; safe, secure and simple communication for the healthcare community.

Within the NHS modernising clinical messaging and replacing dated pager systems is incredibly high on the agenda right now. We at CommonTime recognise the complexity of the healthcare community and have developed an essential mobile app to support you, by connecting people, processes and systems.

Check out our new website at [www.alertive.co.uk](http://www.alertive.co.uk) and find out more about our features and how to trial Alertive for you and your teams.
